Church Website Development Day

What was it all about?

On Saturday 28th February members of Eltham Park and Sunfields Methodist churches joined forces in attending an evangelistic website development day hosted at Eltham Park, with Daniel Gibbins from the Church Website Design Project. The day started at 10am and ended just after 3pm and over forty three people attended.

Development

The work on the day enabled participants to also explore and answer the types of questions that would provide important and essential informational content for the new Eltham Park and Sunfields websites. The exercises throughout the day provided insightful ways of approaching the writing of content for a website, which can then be disseminated by the participants who attended and then utilised (shared) by other members and groups of the church.

Some of the following questions were considered

What is Prayer?

Prayer is the means to communicate with God; a direct and sincere line with God. But prayer is also a dialogue because God also talks to us. Through prayer we feel comforted and protected. Jesus is constantly present with us in prayer, which is in itself a thanksgiving moment for all that we have and are to be thankful for.

Prayer is something that Jesus did; he taught us how to pray through what we now know as 'The Lord's Prayer'. Although God knows our needs; he encourages us to talk to him about them and will guide us through the act of prayer and in being still and peaceful.

Prayer is not a wish and a want list. Prayer is having a relationship with God. You can build this at any time in any place, where ever you are, whoever you are.

We also find that prayer is a way of thanking God for his generosity and asking him for his guidance and help. Our prayers are not always answered, but it is comforting to know that God is listening. It is always a personal invitation to be with God, many Christians feel it is a personal conversation.

We have a relationship with God and prayer is a dialogue. It can have words or be in silence, it is not a wish list for us to 'go shopping'. We look for comfort, protection and peace – prayer offers a chance for us to give our thanks for all that we have.

Shared Moments

Fellowship

It was a great opportunity for groups to connect and explore the meaning of faith together as Christians.

Sharing

Tasks allowed groups to join together in imparting, exchanging and expanding their ideas.

Participation

Individuals from both Churches were able to engage with a creative learning process based on achieving shared goals.

Expression

People were able to create and share great stories, using writing after conversing, as the medium of documentation.

And finally

Following a day of full-on, intensive creativity, we began an initial process of looking at what contributions people could make to the website content. If you would like to contribute to the website, please Anita, or other people on the list below know as soon as possible.
